SKILLS

- HTML
- HTML5
- PHP
- LARAVEL
- REST API
- CSS
- BOOTSTRAP5
- MySql
- Java Script
- ES6
- VUE 3
- Inertia JS
- C Panel
- Cloud Hosting Management
- NGINX
- Python(Basic)
- Machine Learning

PROFILE

I'm a seasoned Full Stack Developer with over four years of experience in creating modern, responsive websites. I have a deep understanding of both front-end and back-end technologies, ensuring high-quality and efficient web solutions from concept to deployment.

PROFESSIONAL EXPERIENCE

Senior Backend Developer, Ezze Technology Limited
January 2023 – July 2024

- Led a team of backend developers, overseeing the entire software development lifecycle, from requirements gathering to deployment and maintenance.
- Designed and implemented scalable backend architectures, ensuring high performance and reliability for web applications serving thousands of concurrent users.
- Optimized database schemas and query performance, resulting in a 30% reduction in load times and improved overall system efficiency.
- Collaborated closely with frontend developers, UX/UI designers, and product managers to deliver seamless, user-friendly features on time and within budget.
- Implemented CI/CD pipelines, automating testing and deployment processes, which decreased the release cycle time by 40%.
- Conducted performance tuning and debugging, resolving critical issues that improved application stability and user satisfaction.

Software Engineer ,Bangla Puzzle Limited
Jun 2021 - December 2022

- Developed and maintained core modules for web and mobile applications, enhancing user experience and functionality.
- Integrated third-party APIs and services, expanding application capabilities and providing seamless user experiences.
- Automated testing and deployment processes, resulting in faster, more reliable releases.
- Provided technical support and troubleshooting for live applications, ensuring minimal downtime and quick issue resolution.

Backend Developer, Rad Soft
January 2021 - May 2021

- Designed and developed RESTful APIs, enabling seamless communication between frontend and backend systems.
- Implemented robust authentication and authorization mechanisms, ensuring secure access to sensitive data and resources.
- Collaborated with frontend developers to integrate user-facing elements with server-side logic, delivering a cohesive and efficient user experience.
- Managed cloud infrastructure and deployment processes, ensuring high availability and scalability of web applications.

Tools

- PHP Strome
- VS Code
- PyCharm
- Jira
- Trello
- Slack
- Git Hub
- Git Lab

LANGUAGES

- Bangla

Personal Information

- Birth Date : 01-06-1997
- Father Name : Md Edris Mia
- Mother Name : Amena Begum
- Religion : Islam
- Gander : Male
- Blood Group : O+
- Marital Status : Married
- Home Town : Lalmohan, Bhola
- Nationality : Bangladeshi

Live Project

Smart Probashi
https://smartprobashi.com/
Role: Project Lead

- Led the development of a fully role-based system with six distinct user panels, ensuring secure and efficient access control.
- Optimized codebase for better performance, leading to faster load times and improved user experience.

Wings Sports Apparel
https://wingssportsapparel.com/
Role: Project Lead

- Spearheaded the integration of frontend and backend systems, ensuring seamless operation across the entire platform.
- Integrated a payment gateway to facilitate secure online transactions and managed cookie policies to enhance user security and experience.
- Conducted code optimization to improve performance and maintainability.

Shotayu (Medisquare)
https://www.shotayu.com/
Role: Team Member

- Contributed to API development, enabling efficient data exchange between the frontend and backend.
- Developed frontend logic using Vue.js, enhancing the application's interactivity and responsiveness.
- Optimized application performance and played a key role in the development of the super admin panel.

Mymetali
https://mymetali.com/
Role: Developer

- Developed a social networking platform akin to Facebook, including a full-featured web version and APIs for mobile app integration.
- Managed third-party package integration and handled hosting management to ensure continuous availability and scalability.

Parliament of Bangladesh
https://www.parliament.gov.bd/
Role: Team Lead

- Led the project from conception to deployment, including the development of high-security features and authentication systems.
- Worked extensively on third-party API integration, developed and maintained the system, and implemented job scheduling for automated tasks.

Parliament SMS
https://sms.parliament.gov.bd/login
Role: Developer

- Integrated SMS gateway for communication, managed scheduling systems for automated messages, and handled API integration and dashboard management.

EDUCATION

B.Sc. in Computer Science & Engineering (CSE)
2015 – 2021
North South University (NSU)
CGPA: 2.23/4.00

Higher Secondary Certificate (H.S.C.) in Science
2012 – 2013
Govt Bangla College
GPA: 3.60/5.00

Secondary School Certificate (S.S.C.) in Science
2011 – 2012
Lalmohan High School
GPA: 5.00/5.00
